

## **THANK YOU SPEECH**

*Ms. NhungThi NGUEN (Viet Nam)*

Director UNAFEI Senta Keisuke-San, Deputy Director, Morinaga Taro-San, distinguished members of staff from UNAFEI and JICA, invited guests, fellow participants, all protocol observed.

It's great honour to have an opportunity to deliver this speech on behalf of participants of the 166<sup>th</sup> International Training Course. We are impressed by the commitment, dedication and passion exhibited by you, your staff and guests that aroused and sustained motivation in us since the day we set foot in Japan and throughout up to today.

This segment of the Knowledge Co-Creation Program was characterized by mutual learning through exchange of knowledge, skills, opinions and other forms of expertise. In addition to lectures, plenary discussions, Individual Presentations and Group works, Observation Visits to complementing agencies and Socio-Cultural sites reminded us that no nation can exist in isolation and those advanced should assist the less privileged to overcome deprivation.

We thank you for your exemplary leadership and management that has kept the fire of this institution burning to deliver its mandate i.e. promoting sound development of criminal justice systems and mutual cooperation.

Japanese language classes were exciting and we thank instructors who converted us to Japanese i.e. linguistically. Our sincere gratitude to designated advisors and support staff, who made our stay comfortable. Wi-Fi in lounge B enabled us to keep in touch with our loved ones virtually thus reducing homesickness.

We also thank Japanese government through JICA and UNAFEI for recognition to our countries by inviting them to take part in this endeavor. We also sincerely thank our respective governments for nominating us to attend this seminar, which demonstrated confidence in our competencies.

In this regard, we the participants promise you and our governments that we shall implement lessons learnt by adopting and adapting knowledge and skills acquired. We hope and believe that this wealth of knowledge will enable us play leading roles in the Criminal Justice Systems of our respective countries.

We, the participants feel privileged to have attended this international training course.

Aligatoo go zai masu!!!
