

The 23rd UNCAC Training Programme (Online)
“Tackling Emerging Threats of Corruption in the Borderless and Digitalized World”

1. Duration and Participants

- From 22 September to 18 October
- 28 overseas participants from 20 jurisdictions

2. Programme Overview

Globalization coupled with rapid progress of information technology has made trades and transactions borderless and highly reliant on worldwide information flows in cyberspace. While these changes have contributed to enormous economic growth, they have also made the fight against corruption more difficult with a number of new and emerging challenges. To counter these challenges, this programme offers participants an opportunity to share experiences and knowledge on (i) finding, preserving, collecting, analysing and utilizing electronic evidence; (ii) detection of corruption cases from various sources and gaining cooperation from witnesses, accomplices and citizens, and (iii) international cooperation.

3. Lecturers

The following visiting experts from overseas and an ad hoc lecturer from Japan, as well as UNAFEI faculty members, will give lectures:

- Visiting Experts
 - Dr. Thomas Dougherty
International Computer Hacking and Intellectual Property
Attorney for Central, Southern and Eastern Europe
U.S. Department of Justice
 - Mr. LAM Seow Kin
